

Kimberly-Clark de México S.A.B. de C.V. (KCM) informs that last Friday June 1st, a fire took place at its Morelia mill located in the State of Michoacan.

Preliminary reports point to a short circuit as the cause and investigations continue.

Fortunately, none of our personnel suffer any injury whatsoever.

The affected assets represent less than 3 percent of the company's fixed assets. KCM estimates that there will not be any material effect to its results as the company has proper insurance and has available capacity in its 11 manufacturing sites.
